

STARCKE[®]
SCHLEIFMITTELWERK

Product Information

Ceramic Cloth ERSTA, top coated (highly flexible, soft) Article-No. 052 JFF

Base Stock	Light, extremely flexible J-weight cotton cloth
Bonding	Resin over resin
Grain Type	Ceramic / Aluminium Oxide
Coating	Semi open coat
Grain Size	180 - 60
Manufactured Width	1.400 mm
Availability	Belts, rolls
Market Segment	<p>To be used with relatively high pressure especially where product flexibility is the main criteria. Suitable for very small radii under 5 mm or corners and ledges such as:</p> <ul style="list-style-type: none">▪ Surgical instruments and joint implants▪ Knife blades▪ Sharp edged grinding operations with V - shaped contact wheels▪ Contoured workpieces with profiled contact wheels
Advantages	<ul style="list-style-type: none">▪ Highly adaptable▪ Excellent stability of the grain in the bonding structure. The special coating reduces heat development on the belt and the workpiece.▪ Extremely hard and tough micro fragmentation of grain leads to development of new cutting zones = self-sharpening effect.
Benefits	<ul style="list-style-type: none">▪ Well suited for grinding of profiles and contours▪ Long life▪ Excellent performance Reduced scratch depth resulting in an improved surface.
