

Product Information

Aluminium Oxide Paper ERSTA Article-No. 541 C3

| | |
|----------------------------|--|
| Base Stock: | Flexible latex C-paper with high tear resistance |
| Bonding: | Resin over resin with stearate top coat free of any contaminating substances affecting the blending of the lacquer |
| Grain Type: | Aluminium oxide |
| Coating: | Close |
| Grain Size: | P 320, P 240, P 180, P 150, P 100, P 80 |
| Manufactured Width: | 1.650 mm |
| Availability: | Velcro discs |
| Market Segment: | Aluminium – sheet metal forming – car body work Boat building Sanding of glass fibre laminate and carbon fibre laminate |
| Advantages: | Full resinoid bonding ensures excellent performance and durability. The dust repellent top coat prevents premature clogging of the grain surface. No contamination substances are introduced to the sanding area. Brown aluminium oxide grain for maximum performance and durability. |
