Product Information

Aluminium Oxide Paper ERSTA Article-No. 542 B7 and 542 C7

Base Stock	Flexible latex B- and C-paper with high tear resistance
Bonding	Resin over resin with dust-repellent additives in the top coat
Grain Type	Brown aluminium oxide
Coating	Semi open
Grain Size	542 B7: P 800 - P 150 542 C7: P 120 - P 60, P 40
Manufactured Width	1.650 mm
Availability	Sheets, cut sheets, discs, Velcro discs, rolls
Market Segment	Automotive industry - vehicle manufacture and repair. Dry sanding of electrocoat, primer and subsequent paint finish. Deburring and roughing of plastic parts such as <ul style="list-style-type: none">▪ Bumpers, door mouldings and ornamental edgings▪ High finish quality for painting jobs▪ Woodworking
Advantages	<ul style="list-style-type: none">▪ Full resinoid bonding ensures excellent performance and durability. Also suitable for brief damp sanding applications▪ The dust-repellent additive incorporated as top coat prevents premature clogging of the grain surface. Unlike conventional stearate coating this repellent effect is maintained throughout the product life.▪ Brown aluminium oxide grain for maximum performance and durability. Designed to eliminate file marks on vehicle structures.▪ A product with universal application possibilities, thus resulting in an economical stock keeping.
